FLEETS READY FOR WAR

Kaiser's Warships Mobilize at Wilhelmshaven, While English Dreadnoughts Sail Under Sealed Orders.

## BELGIAN MILITIA TO COLORS

Berlin, July 29.—Germany's navy is being for the worst. The North Sea fleet returned to Wilhelmshaven today and the Baltic fleet arrived at Kiel. They are in position to co-operate in case of attack by British ships.

Portland, England, July 29.—The first British fleet sailed today under secret orders from the admiralty. Its destination is believed to be the North Sea.

Dover, England, July 29.—All men who are on leave from sixty destroyers were recalled to their ships tonight. The Dover pier is guarded by sentries with fixed bayonets.

Gibraltar, July 29.—The Spanish fleet has been ordered to concentrate at the Balearic Islands.

Vienna, July 29.—The government announced today that henceforth all Servians liable to military service will be arrested and turned over to the authorities as prisoners of war. Travelers will be subject to espionage and arrest.

Stuttgart, Württemberg, July 29.—Socialist rioters making a demonstration against war whipped the police in a series of conflicts today and troops were called out to restore order. Guards along the frontier lines were alerted.

Brussels, July 29.—Three classes of the Belgian militia were ordered to mobilize today.

BANK FAILURES

London Stock Exchange Suspends Session, Except in Few Securities.

## CROWDS ARE ANXIOUS

Gold Reserve Increased by Shipments from United States—More Failures Due.

London, July 29.—There is an unprecedented condition of affairs on the stock exchange today. The ordinary session of business, except in a few special securities, was suspended, and seven firms were officially announced defaulters, involving fifteen failures.

After the close of business anxious crowds gathered around the principal banks in an endeavor to ascertain whether any checks had been returned unpaid, and although officials were somewhat reluctant to give out information, it became known that the checks of several firms, including one important firm of brokers, had been returned, thus announcing that several more stock exchange failures tomorrow are inevitable.

The stock exchange troubles so far have been unaccompanied by any monetary upheaval, and so far directors of the Bank of England have not regarded the monetary situation as serious enough to warrant special action, although no one will be surprised to see some advance from the low rate of 5 per cent.

Gold Reserve Higher.  
At today's weekly meeting of directors it was stated that the gold reserve in the bank is considerably higher than at this time last year, and exceptionally large shipments were reported on the way here from the United States. Serious as the financial position is abroad, trouble here so far is a stock exchange crisis, not a monetary one.

New York, July 29.—Not since the panic days of 1897 has the New York Stock Exchange witnessed such excitement and anxiety as prevailed today.

The fact that this was the only open market in the world that was free and unrestricted caused the excitement to be intense. For the first time in history London failed to send over prices for Americans and this added to the anxiety.

Members began crowding around the posts at which the different stocks are traded in earlier than usual, and the galleries were filled with visitors. When the gong clanged loudly for the beginning of trading the crowds of brokers suddenly turned as if by magic from a quiet and orderly assemblage to a seething mass of humanity which swayed back and forth, the brokers frantically yelling their orders.

Steel's Exciting Opening.  
The din was greatest around the posts where Steel, Reading, and Union Pacific were traded. Reading opened at different quotations, ranging from 132 3/4 to 130 1/2, 5,000 shares changing hands in the first few minutes of trading. Steel also had an exciting opening, 2,000 shares going at 61 1/4, and 5,000 immediately at 64.

Declines of from 1 to 3 points in the standard issues were recorded all over the room, but brokers who stood on the outside of the crowds at this point in the morning declared that the market was executing supporting orders.

So vigorous and extensive were these purchases that the market immediately rebounded 2 to 3 points to around Tuesday's closing prices. But the aggressive buying continued, prices steadily moving up to a level which showed signs of being a level 5 to 6 points from the low level which showed bottom prices for the year in twenty-five stocks. The support continued until well into the afternoon, when there was a slight recession from the best prices.

Lowest in Nine Years.  
In the morning smash three issues—Baltimore and Ohio, preferred, Chesapeake and Ohio, preferred, and New York Central—sold at the lowest point in nine years. Ontario and Western the lowest in fifteen years. Chicago and North Western the lowest since 1904. Great Northern and Interborough Metropolitan common is at the smallest quotations since the 1907 panic, while St. Paul, Chesapeake and Ohio, and Union Pacific went to the lowest prices since 1904.

U. S. RECEIVES FORMAL NOTIFICATION OF WAR

Ambassador Penfield, in Message to Secretary Bryan, Gives Austria's Declaration.

Secretary Bryan yesterday received from Ambassador Penfield at Vienna a copy of the formal declaration of war issued by the Austrian government Tuesday.

This constitutes formal notice to the United States government that a state of war exists between Austria and Serbia, and the Washington administration is supposed to act accordingly hereafter.

The American Red Cross yesterday took cognizance of the fact that a state of war exists and served notice on all its chapters that contributions for Red Cross relief work in the field of the impending hostilities will be received hereafter until further notice.

Observers of the situation here are most pessimistic with regard to the prospect for peace or localization of the impending conflict. Little hope is placed upon the discussion between the Berlin and St. Petersburg governments.

The opinion was generally expressed that Russia would prove herself simple-minded and weak if she consented to hold aloof from the conflict if Austria would agree to respect the territorial integrity of Serbia.

It was pointed out that it is quite unnecessary for Austria to annex Serbia in order to carry out her intention of crushing Serbia and putting an end to the national and Pan-Slavic aspirations of the Balkan States.

## SHRIEK CURSES AT JURORS.

New York, July 29.—Benedetto Randazzo, thirty-two years old, today was convicted of kidnapping before Judge Malone, in general sessions, and remanded until Friday for sentencing. He was the fifth of a gang to be convicted. After the jury had rendered its verdict the wife and sister of the prisoner rushed at the jurors and cursed them. They were removed forcibly from the building by court attendants.

WARBURG ROW ENDED,  
PRESIDENT BELIEVES

Federal Reserve Board Candidate's Consent to Quiz Presages Confirmation, He Feels.

## SOME SENATORS DO NOT AGREE

President Wilson regards the matter of Mr. Warburg's appearance before the Senate Committee on Banking and Currency as settled and he is almost equally optimistic as to the outlook of Mr. Warburg's confirmation as a member of the Federal Reserve Board.

The Washington Herald exclusively announced yesterday that Mr. Warburg had decided to appear before the Senate committee.

The President's confidence that Mr. Warburg will appear before the committee grew out of a telegram which he received from Mr. Warburg yesterday. Mr. Warburg said that as a result of his conference with Mr. Nelson A. Miles, with Senator Hitchcock, a member of the committee, he saw no reason now why he should not appear before the committee and answer the questions they had in mind to ask.

Mr. Warburg also wired yesterday to Senator Owen, chairman of the Senate Banking and Currency Committee, that he would appear before the committee. The hearing probably will be accorded to Mr. Warburg before the close of the week.

But in spite of this hopeful situation in the committee, it is conceded that Mr. Warburg's appearance before the committee will be followed by a favorable report, the outlook for confirmation once the nomination is before the Senate looked less favorable yesterday afternoon than it has for several weeks.

Austrian Nobleman Answers Call to Arms After Nocturnal Marriage in Paris.

## TURNS SOLDIER, SHE A NURSE

Paris, July 29.—A nocturnal wedding between Miss Gladys Virginia Stewart, daughter of the Countess de Strale Des, and a member of the Austrian army, was celebrated last night in Paris.

The couple had planned to marry in Geneva on August 5, but last evening Count Apponyi received a telegraphic summons to join his regiment in Budapest immediately, prepared to go to the front. After a hurried conference between the count, the bride-elect and her mother, an immediate wedding was decided upon.

The mayor of Geneva and the priest in charge of St. Joseph's Church were notified, and at 2 o'clock this morning the count and Miss Stewart drove to the town hall and were hurriedly married by special license. Immediately afterwards they proceeded to St. Joseph's Church, where a religious wedding was solemnized, and then went direct to the railroad station leaving at 5 a. m. for Budapest. The count will join his regiment and his bride will join the Red Cross society to attend to the wounded.

LIEUT. GEN. NELSON A. MILES,

AND BLOODIEST WAR

Europe Will Send Nearly 20,000,000 Men Into Field—Russia Alone Has 7,000,000 Soldiers.

## EXPENSE TO BE TREMENDOUS

Special to The Washington Herald.

Boston, July 29.—Lieut. Gen. Nelson A. Miles, discussing the Austro-Servian war here, expressed the belief that it would probably develop into one of the bloodiest conflicts in history and be the last great war.

"If Russia comes to the aid of Serbia in the present war," said he, "it is difficult to see how the rest of the six powers, which are being drawn into the conflict, and no man can say what the result will be. If Russia stays out and Germany, as she now says she will do, backs Austria, it is simply amazing that Austria's taking possession of Serbia and doing as she pleases with that country."

"It is a terrible thing to contemplate, for if Europe is involved it means that there will be nearly 20,000,000 men available for war. Russia alone can put 8,000,000 to 10,000,000 men in the field. The Russian army is now in good condition and very powerful."

"Germany can put 5,500,000 men in the field; Austria can show 2,500,000; France 2,000,000, and Italy 1,000,000. Just what Greece, Roumania and Bulgaria will do is problematical."

"England's land force is not so very remarkable, but if she calls in territorial troops from India she can produce a vast army. I do not think it would come from her other colonies."

"Austria's army is in good condition, well recruited and finely trained. To one seems to know whose side the men in the field, the fact that millions of men would be taken from industry, the cost of their equipment, which in these modern days is a very high expense, the cost of their maintenance, the cessation of commerce and transportation, make a terrible toll."

## ENGLAND NOT ALARMED

BY PROSPECTS OF WAR

London, July 29.—The British public refuses to be agitated over the war prospects. In an official statement issued tonight by the war office the position is taken that the crisis is none of England's affair, and the man in the street takes the same view.

"No measures have been taken by the military authorities which are of the nature of mobilization," says the official announcement, "the orders which have been given are of purely precautionary nature. No mobilization has been ordered."

## WOULD REINSTATE OFFICERS.

President Wilson may soon be called to approve or disapprove bills that seek to override the conclusions of the National Affairs Advisory Board. A subcommittee of the House Committee on Naval Affairs yesterday ordered favorable reports on bills providing for the reinstatement to the active list of Capt. J. H. Gibbons and Capt. Frank K. Hill, who were "punch-drunk" on July 1 last.

The action on these two bills followed testimony given by Admiral Knigh, a member of the board. It is understood that the action of the subcommittee will be approved by the full committee.

SENATE SPEEDING UP  
ON TRUST LEGISLATION

Wilson's Conferences with Business Men Stir Lawmakers to Action.

## MAY ADJOURN BY AUGUST 25

President Wilson's conferences with leading business men have started a back fire against laggard members of the Senate in the matter of anti-trust legislation, and the result is seen in expression of the hope by influential members that Congress may be able to conclude the program and adjourn by or shortly after September 1. In some quarters the date is set as August 25.

Aside from their views on general business conditions, which the President regards as strongly supporting his attitude, the leading business men of the country who have visited him have unanimously expressed the opinion that it were far better to finish the trust bills before adjournment and then give business a rest from legislation than to postpone the final vote until after the fall elections.

Among those who yesterday conferred with the President was Hugh Chalmers, automobile manufacturer. Following the conference, Mr. Chalmers announced he was in thorough sympathy with the President's desire to wind up business legislation by passing the trust bills at this session. The Wilson administration, he declared, had fallen heir to the culmination of many years of anti-trust agitation, and was facing the task courageously and intelligently. He said: "The main thing is to have the present suspense regarding business ended. I stand with the President in his insistence that the trust bills be passed now. Some steps must be taken to restore business men to the confidence of the public. Ninety-five per cent of business men will be only slightly affected by the trust bills. Only a small number who wish to continue practices now discontinued by the great body of business men will be hurt."

Senator Newlands, father of the trade commission bill, in the Senate, declared yesterday that he believed not more than three Democrats would vote against his bill, and that at least fifteen Republicans would vote for it.

LABOR RIOTS IN PARIS;  
CITY PREPARES FOR WAR

Provisioning Against Long Conflict

Commences—Street Cafes Are Deserted.

## THROWS CHEER POINCARÉ

Paris, July 29.—Incensed at the action of the civil authorities in forbidding the strike, meeting under the direction of the revolutionary labor organizations which was called for tonight, thousands of the members of the labor bodies assembled at the hall this evening and, after waiting impatiently for some time, hurling insults at the police, formed a solid phalanx and tried to rush the cordons of gendarmes guarding the entrance.

Fighting of the fiercest kind ensued and many of the workmen were badly wounded. Two hundred and fifty were arrested.

Paris fears and yet hopes for war, and little peace talk is heard on the boulevards. That the authorities are fearful of conflict is evidenced by the fact that preparations for the provisioning of the city already are going forward.

The city is not itself tonight. There is no drinking at the tables that line the sidewalks nor on the terraces in front of the restaurants and cafes. There has been much heated talk in these places, and all who were responsible to the police have been ordered to leave the city. The police have ordered that no one may frequent them. They hope to end the disorders which have occurred nearly since the war began. President Poincaré returned from Russia today, and his arrival served as an outlet for some of the patriotic enthusiasm that has been building up in the city.

WAR SEPARATES SERBIAN  
FROM AMERICAN WIFE

London, July 29.—Miss Slavko Grouitch, formerly Miss Mabel Dunlop, of Virginia, en route from the United States to Belgrade, has been separated by war conditions from her husband, who is assisting the foreign secretary of Serbia. Writing from Switzerland to a friend in London, Miss Grouitch says she has been prevented from crossing the Austrian frontier on her way to join her husband in Belgrade. She adds:

"Slavko telegraphs me not to try and cross to Austria because every one holding Servian passports is subject to detention or annoyance."

"I am wild with anxiety for him, but feel that I can really be of more use outside of the Austro-Hungarian empire. If I hear that he has broken out I shall at once return to London and raise a corps of nurses and surgeons. I hope Slavko will be able to reach me by the way of Greece in a day or two."

England not alarmed by prospects of war.

Why Wait All Night to  
Have Your Bowels Move

Why take pills, salts, oils and drastic cathartics into the mouth that must pass down the throat, stomach and 32 feet of bowels in order to reach the trouble, which lies between 2 and 3 inches of the end of the lower bowel?

## TU-BO-LAX Is the New Way

IT IS a laxative ointment in a collapsible tube. A little of this ointment is injected into the rectum, which immediately dissolves all the hardened substances and evacuates, cleanses and purifies the lower bowel.

Taking drugs through the mouth to produce a movement of the bowels is antiquated and unreasonable.

Physicians who have seen Tu-Bo-Lax exclaim, "Why didn't some one think of that before?" Here is a congested condition of the bowel only two inches from the surface, which is clogged like a sewer pipe, backing up all the gases and poisons into the system—creating indigestion, biliousness, sick headaches, sleeplessness, nervousness and general debility. Yet people have gone on for years pouring drugs into the mouth that takes all night to work, passing through the mouth and throat and 32 feet of bowels in order to reach this little clogged condition at the end of the rectum. Can any one imagine anything so idiotic?—even the plumber would know better. The bowels are nothing but a sewer pipe when they become clogged. The only remedy is to remove all obstructions. Who would think of going 32 feet away from the trouble when they can reach it within 2 inches? It is as easily applied as putting a spoon in the mouth. There is no guesswork. It does not weaken nor disturb any other organ. It gives you a movement when you want it. It is not a mechanical device. It is a laxative ointment and schools the bowels to act naturally. It is especially adapted for all those who value time and must have their bowels move at a certain time. Conductors, motormen, policemen and business men will find this is truly a twentieth century blessing. Tu-Bo-Lax cleans the bowels with one movement. There is no running three or four times just when it is most inconvenient, as is often the case with laxative pills.

Tu-Bo-Lax writes and spells the death knell to purgatives of every description.

Physicians are bound to give it universal indorsement. It is sold by all the leading druggists in Washington, or we will send you a tube upon receipt of 25 cents, which contains several applications.

SUBSTITUTE FOR PLAZA  
AWARD BILL REPORTED

House Committee Would Change Personnel of Commission to Aid Property Owners.

The House Committee on Public Buildings and Grounds yesterday authorized a substitute for the Post plaza awards resolution.

The substitute amends the original by creating an awards commission composed of the superintendent of Capitol buildings and grounds, the army officer in charge of public buildings and grounds, and an assistant attorney general, to be appointed by the Attorney General.

Under the original Post resolution, the commission comprised the chairman of House and Senate Committees on Public Buildings and Grounds, and the superintendent of the Capitol buildings and grounds.

This resolution will continue the fight to displace the resolution reported out by the House District Committee, over which there is a jurisdictional fight between the two committees.
